SUMMARY

Highly skilled senior frontend engineer with 13+ years of experience in frontend technology (ReactJS, Node, Typescript, JS) and a passion for building innovative solutions. Adept at mentoring junior developers and fostering a collaborative development environment. Currently leading a large team of engineers and managing multiple complex logistics and insurance projects.

SKILLS

Programming Languages & Core Technologies
JavaScript (ES6+), TypeScript, React.js, Node.js, HTML5, CSS3, Java, SQL

Frameworks & Libraries
Next.js, Redux, React Query, Tailwind CSS, Spring Boot, EXTJS

APIs & Data
REST APIs, Data Modeling

Leadership & Management
Technical Leadership, Mentorship, Project Bootstrapping, Team Management (10+ members)

PROFESSIONAL EXPERIENCE

Tech Specialist, *Kumaran Systems*   08/2025 – Present
- Managing a team of 10 employees, providing technical guidance and performance oversight.
- Overseeing the technical execution of two primary projects: Swap Logistics and an Insurance platform.
- Directing task assignments and focusing on critical technical points to ensure project stability and delivery.

Senior Front-end Developer, *Optimum Solutions (Client: Mashreq Bank)*   02/2025 – 08/2025
- Developed core features for the loan payment section of the Mashreq Bank application using React.
- Collaborated with cross-functional teams to implement secure and user-friendly financial workflows.

Senior Frontend Engineer, *Revcomm Inc., Tokyo Japan*   07/2023 – 11/2024
- Developed a unique feature capable of processing CSV files with over 30,000 data rows in under 1 second.
- Implemented performance improvement features that played a key role in attracting new merchants shortly after launch.
- Successfully managed multiple projects using Jira and Notion to prioritize requirements in a fast-paced environment.
- Led a team of 4 developers to establish a reliable release schedule and project predictability.

Tech Lead, *State Street, Bengaluru India*   09/2019 – 11/2022

- Developed a reusable React framework for UI management and project bootstrapping adopted by 6 projects.
- Provided technical leadership by guiding multiple teams on React best practices and architectural considerations.
- Led smooth releases of key projects with a deep understanding of the entire release process.
- Developed RESTful APIs in Java and performed rigorous code reviews to ensure quality and performance.
- Mentored junior and senior developers, providing knowledge transfer and fostering team growth.

Senior Software Engineer, *HCL Technologies, Bengaluru India*   01/2017 – 08/2019

- Developed features for the admin portal that boosted client efficiency, resulting in $1M cost savings during peak seasons.
- Designed and implemented a single-click solution for migrating Excel data into applications.
- Led a team of 5 engineers and volunteered for mentorship programs.
- Owned the Proof-of-Concept (POC) for upgrading legacy ExtJS pages to modern frameworks like ReactJS.

Senior Software Engineer, *Walking Tree Consulting, Hyderabad India*   01/2016 – 12/2016

- Developed custom components using ExtJS (Sencha Touch) and architected UI upgrades for a risk management engine.
- Maintained high coding standards through code reviews and built a culture of quality.
- Managed multiple projects effectively using critical thinking and problem-solving skills.

Software Engineer, *Tata Consultancy Services (TCS), Bengaluru India*   12/2012 – 12/2015

- Interfaced directly with clients to gather requirements and design user-centric web applications.
- Built web pages using Spring MVC and established a strong understanding of front-end technologies.
- Optimized existing codebases with smooth platform upgrades from HTML to ExtJS.

EDUCATION

Bachelor of Engineering in Information Science and Engineering,   2008 – 2012
SJB Institute of Technology - VTU
